

# DIGITEAL VOLUME PRICING

To find out the appropriate **pricing for the presentation**, consider how many invoices per month your company is submitting ; it means the number of bills on which the Digiteal banner will be present each month.

It's a "Zero risk" solution as the cost will only occur if your customer chooses to receive his bill in Digiteal.

Regarding the **pricing for the payment**, consider the number of payment transactions done through the "One-Click" solution on a monthly basis..

Invoices / month	Cost / invoice	Payment / month	Cost / payment
0 - 19	0,100€	0 - 9	0,200€
20 - 99	0,080€	10-29	0,180€
100 - 999	0,071€	30 - 249	0,150€
1.000 - 4.999	0,060€	250 - 1.249	0,135€
5.000 - 19.999	0,054€	1.250 - 4.999	0,120€
20.000 - 49.999	0,048€	5.000 - 14.999	0,110€
50.000 - 99.999	0,043€	<b>&gt;= 15.000</b>	<b>0,100€</b>
<b>&gt;= 100.000</b>	<b>0,040€</b>		

The **payment done by QR code** or by the "**One-click-pay**" button will be charged based on the monthly payment transactions.

For example, if a company sends 2.500 invoices per month with the Digiteal banner and 800 invoices are presented in Digiteal and paid with the one-click pay button:

- The **presentation's** pricing is 6 cents/invoice ;
  - 800 invoices x 0,060 € = 48 € ;
- The **payment's** pricing is 0,135 €/payment
  - 800 invoices x 0,135 € = 108 € ;
- The total monthly cost is only **156 € !**

Price list valid until the 31/12/2018 ; specified prices are excluding VAT ; data can be updated without prior communication ; Vers. 20180423
