

WE'RE HIRING

# FRONT-END DEVELOPER

Send your CV at  
[work@digitéal.eu](mailto:work@digitéal.eu)

## ABOUT YOU

You are motivated to combine the art of design with the art of programming?

You like translating the UI/UX design wireframes to actual code that will produce visual elements of the application?

You love bridging the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works?

You are a tech-savvy professional, who is curious about new digital technologies and aspires to combine usability with visual design?

Then this job is for you!

## OUR COMPANY

Digiteal is a FinTech company developing an innovative alternative in the field of electronic invoicing and payments. It is compliant with rigorous regulations of the financial sector, yet you will be surprised, among other things by our self-management organization. At the heart of all our activities are trust and transparency towards our employees, customers and investors.

We are specialized in the development of an electronic invoicing and payment product called Digiteal. Created in 2015, Digiteal is a startup. This is an opportunity to participate in the early stages of the adventure with us.

Company location : *Brabant-Wallon*

Status : *Employee*

## YOUR ROLE WITHIN DIGITEAL

As a developer at Digiteal, you participate with members of the project team in the complete development cycle. This cycle includes the requirements analysis, design, development, testing and finally putting into production with a particular regard to the quality delivered.

Specialized in front-end development, you will be attentive to provide a beautiful user experience in collaboration with the back-end developers. There is no strict separation and you will also be able to work in the back-end if you wish.

We are a small company so if you are capable of providing a helping hand on different levels, it would be an extra advantage. The full stack is setting up servers, deploying on AWS and developing the backend and the frontend.

Send your CV at  
[work@digiteal.eu](mailto:work@digiteal.eu)
