- Typescript
- HTML
- CSS, SASS, SCSS
- JSON/REST

You will be able to master:

- End-to-end testing (Protractor, Jasmine, Karma)
- DevOps techno
 - Jenkins
 - Docker
 - AWS

Nice to have:

- Mobile development
- Ionic framework
- Bootstrap

You have professional working proficiency in English. The code and documentation are in English.

Additional points if you also know : FR/NL/DE

Your role within Digiteal

- Translate a mockup into a responsive interface
- Manage all aspects of maintenance for a frontend app
- Write E2E tests
- Share the build between coworkers
- Build and deploy a front-end app

Our Company

Digiteal is a FinTech company developing an innovative alternative in the field of electronic invoicing and payments. It is compliant with rigorous regulations of the financial sector, yet you will be surprised, among other things by our self-management organization. At the heart of all our activities are trust and transparency towards our employees, customers and investors.

We are specialized in the development of an electronic invoicing and payment product called Digiteal.

Created in 2015, Digiteal is an early scaleup. This is an opportunity to participate in the early stages of the adventure with us.

Our offer

A very complete package, attractive and corresponding to your knowledge and experience.

The opportunity to participate in an innovative European business project.

A fulfilling work in a dynamic company respectful of the human person.

An environment that promotes learning and discovery.
